Objective

An enthusiast looking to start a career as an entry-level software engineer or developer in a well-reputed firm. Working on data structures, algorithms and web development.

Passionate about new technologies and implementing new ideas.

Skills

- **Programming Languages:** Proficient in C++ and familiar with Object-Oriented Programming (OOP) principles.
- **Data Structures & Algorithms:** Understanding of fundamental concepts and their applications, with theoretical knowledge and problem-solving skills.
- **Web Development:** Proficient in HTML, CSS, JavaScript, and the MERN stack (MongoDB, Express.js, React, Node.js). Experienced in developing dynamic, responsive web applications and managing both front-end and back-end development.

Projects

- **Expense Tracker (MERN) :**
Built an expense tracker with login, sign-up, and logout authentication, allowing users to add, update, and delete expenses. Utilized MongoDB for data storage and React for a seamless user interface.

Education

- **B.E. in Computer Science and Engineering**
Bangalore Institute of Technology — GPA: 8.5 — Expected Graduation: 2025
- **12th Standard:** Jyan Jyoti Residential Public School — 93% — CBSE — 2021
- **10th Standard:** DAV Public School, Patna — 89% — CBSE — 2019

Achievements

- **Problem-Solving Mastery:** Successfully solved challenging programming problems on various competitive platforms.
